People are the Power of Red

Hello. I'm Rick Roehl.

My dad started this company with a single truck in 1962. I grew up in this business—washing trailers and jockeying loads around the yard. I was a company driver before leasing my own trucks. Today, as the CEO of one of the largest trucking companies in America, I occasionally climb behind the wheel and haul a load because driving trucks and delivering freight is really the root of what we do at Roehl Transport. And driving myself helps me stay in touch with the job we ask of the hard-working individuals that make our company great.

We recognize it's the energy of our people that ultimately powers all we do. As a Maintenance Support Professional you help keep our fleet of more than 2,000 power units and 5,000 trailers road ready and in top safety condition for our more than 2,000 drivers who provide truckload services to over 7,500 customers all across the country and into Canada.

This company is built on strong values—like safety, integrity, and mutual support and teamwork. We value your success and are here to help you meet your professional and personal goals.

We welcome you to **TeamRoehl**.

Rick Roehl

Since 2004, Roehl has been recognized every year as one of the safest carriers in the nation by the American Trucking Associations, the trucking industry's largest trade group. During that time, we've received numerous awards for industrial safety as well.

Grow with Roehl Transport

As part of our Maintenance Team, you'll enjoy a diverse work environment that is both interesting and challenging.

The size and scope of Roehl's fleet provide an opportunity to perform preventative maintenance and repair work on the latest truck types like Freightliner and International, most with Cummins or Detroit Engines under the hood.

Our different business divisions will help you grow your skill set with a variety of trailers including Duraplate® van trailers, standard and step deck flatbed trailers, curtainside trailers and temperature controlled units.

Our training and resources allow you to be your best.

- **Competitive Wages**—Shift differentials and pay for experience.
- **Comprehensive & Affordable Employment Package**—From our health, dental, disability and life insurance to an outstanding 401k savings and profit-sharing program, Roehl benefits help save

you money, protect your family and provide income for your retirement.

- **Flexible Scheduling**—16 days a month.
- **Superior On-the-Job Training**—Advance your skills and gain your certifications on-site.
- **Advancement Opportunities**—We value our employees. Our promotion from within policy and tuition reimbursement offers you the opportunity to stay and grow your career with Roehl.
- **Stability**—Family owned and operated with over 50 years of experience and growth.
- **Safety is Our Cornerstone Value**—Take part in regular safety training and work in clean, safe work areas.
- **Our Corporate Culture**—As a member of TeamRoehl, take part in team-building company events and be recognized for outstanding performance and safe work.
